EVST supports the research and experiential learning of our majors and minors – especially those working with EVST-affiliated faculty. Past funding has gone to students conducting research in the field, lab, or library, and to students traveling to conferences, study sites, or academic study tours. Awards are issued directly to students. The faculty member (or other mentor) supervising the research or travel needs to come to an agreement with the student on the hours of commitment and/or activities that will be associated with this award. Mentors must also provide the EVST program with a support letter (sent to the email address below).

Awards will be made based on the merit of the request and on the availability of funds. To apply for a STEM Award, complete this form and submit to: Paula.Breslin@uc.edu
Your request will be reviewed and you will be notified of the decision.

Student Name ________________________________
M-number ________________________________
email: ________________________________
phone: ________________________________

EVST major? ______ YES ______ NO
______ Check here if you are an EVST /EVAP minor. What is your major? ______________________
______ Check here if you are a dual major. What is your other major? ______________________

Describe how the requested STEM award will be used. __________________________________________
